

Reasons To Choose Renville Health Services For Your Employment.....

I have always loved cooking and sharing my meals with others, so applying as a full-time cook at Renville Health Services was an easy decision for me. I have been here for 8 months and I look forward to coming to work. One of the things I look forward to is delivering the Meals-on-Wheels to the tenants of East Ridge Court. I know each day Miss Agnes will be patiently waiting for her meal and that I will have the opportunity to visit with her. I did have reservations when I started about getting to know residents and tenants, Miss Agnes changed that for me! Even though our visits are usually short, it has become what I consider the best part of my work day and my job!
