

Reasons To Choose RenVilla Health Center For Your Rehab.....

Duane and Marcella Standfuss of Danube

After a trip to the hospital Duane was told he needed more Rehab and would need to go to a Nursing facility before going back home. This was overwhelming for us. Our girls and families were so great to help us with the move to Renville Health Services. Because I did not want to be away from Duane, my girls arranged for me to have an apartment at Meadows on Main while he was at the RenVilla. Everyone was so cooperative in helping us make our move. The staff and food were good. We enjoyed having every meal together. The therapy team worked hard to help me reach my goal of going home. We want to Thank RHS for helping us in our situation, we would definitely recommend them to everyone!
